EDUCATION

- Rajagiri School of Engineering and Technology, Kakkanad** 2023-2027
B.Tech in computer science CGPA: 9.23
- Al-Ameen Public School, Edappally, Ernakulam, Kerala** 2020-2022
Senior Secondary Education, Edappally Percentage: 95.1

LEADERSHIP & ACTIVITIES

- Branding & Marketing Lead, RSET IEDC x IIC RSET** 2026-Present
 - Designed promotional campaigns for flagship events with 100+ attendees.
 - Coordinated cross-team branding strategies to enhance student engagement.

PROJECTS

- Machine Learning-Driven Air Quality Forecasting** 2025
ML driven Air Quality Forecasting with Component wise Pollutant estimation and pollution-induced Disease prediction
 - Tools & technologies used: Python, NumPy, Pandas, scikit-learn, keras, Matplotlib, Seaborn, Google Colab (for experimentation phase), React, JavaScript
 - Analyzed six machine learning models to forecast Air Quality Index (AQI) in urban areas and identified the most effective approach
 - Implemented component-wise prediction of key air pollutants to enable detailed pollution analysis
 - Engineered a framework to map pollution levels to known health impacts, identifying possible pollution-induced diseases and assessing respiratory risks
 - Performed trend analysis of pollution patterns to provide insights into air quality variations over time
- PeerNest** 2025
Anonymous Peer-to-Peer Support System for College Students (Build backend logic using Python and Flask)
 - Tools & technologies used: HTML, CSS, JavaScript, MySQL, Python, Flask, Copilot for debugging
 - Build a web-based application that allows users to post concerns anonymously and receive replies from designated moderators. (Completed project milestones on time with strong teamwork and collaboration. Learned about Flask framework and API integration)
- E-commerce Website** 2025
E-commerce website with all the basic features in an online shopping app
 - Tools & technologies used: HTML, React, JavaScript, CSS, Node.js, Express.js, MongoDB, Bootstrap
 - Build an E-commerce website with both admin and client-side views. Supported all basic features like: Buy, Wishlist, Add, Delete and Cart view Products (Understood various API calls, Components in React and Database Integration)

TECHNICAL SKILLS AND INTERESTS

Languages: Python, SQL, C, Java
Developer Tools: GitHub, VS Code
Frameworks: React, Express.js, Sci-kit Learn
Cloud/Databases: MongoDB, MySQL
Data Analysis & Visualization Tools: Power BI, Excel
Soft Skills: Team Oriented, Time Management, Adaptability, Communication
Areas of Interest: Data Science, Machine Learning, Web Development

ACHIEVEMENTS

- Hackathon** Secured Top 7 position at Inter-College CodEdge 24-Hour Hackathon, conducted by the ACM Student Chapter FISAT
